To Whom It May Concern:

All versions of the MarS M2 Automatic Activation Device (AAD) has been tested in all Vector Harness/Container Systems (Tandem & Sport) according to PIA TS-112. It has been determined that it is compatible and in our testing did not interfere with the reserve deployment system, or the functionality of the system.

We have not tested the reliability or performance of the MarS M2 AAD and do not make any claims as to its functionality or reliability.

If you have any questions regarding this, please contact United Parachute Technologies directly.
